LED Luminators

Bright Pure White LED Arm Lights

The ultra-bright LED Luminator fixtures produce a revolutionary, white light for much improved color quality, operate at under 10 watts of power (at .14 amps), and consume 15 times less energy than traditional 150 watt halogens. Rated for over 10,000 hours of action, you'll never worry about replacing halogen bulbs or being burned by a hot lamp ever again!

These lights can be used in all EVO display units!

Available in Black or Silver, The LED Luminators are packaged in pairs, in a custom box made with recycled polypropylene and recycled Styrofoam.

LED Light Dimensions:

Fixture head measures 127mm L x 25.4mm H x 76.2mm W
400mm arm from base to socket
